Our History 1/2

1856

THE ESTABLISHMENT
LA FONDAZIONE

On the table of the first Italians from the very beginning. Sambonet began serving the homes of the Piedmontese people when united Italy was being born. In 1856 Giuseppe Sambonet, the son of a nobleman from Vercelli -after graduating from Fine Arts- obtained his warrant as Master Goldsmith. Depositing his seal bearing the initials "GS" at the Turin mint, he established the company "Giuseppe Sambonet", which by the early 1900s, soon became the official supplier to many nobles, including the Duchess of Genoa and the Count of Turin.

Sulla tavola dei primi italiani fin dall'inizio. Sambonet ha iniziato a servire le case dei Piemontesi proprio negli anni in cui nasceva l'Italia unita. Era il 1856 quando Giuseppe Sambonet, figlio di un nobiluomo di Vercelli – dopo il diploma di Belle Arti – ottenne il brevetto di Maestro Orefice. Depositando presso la zecca di Torino il punzone con le iniziali "GS" costituì la ditta Giuseppe Sambonet che già dai primi del Novecento è stata fornitrice ufficiale di molti nobili, tra cui la Duchessa di Genova ed il Conte di Torino.

1938 - 1945

INDUSTRIAL INNOVATION
L'EVOLUZIONE TECNOLOGICA

In every era, Sambonet has stood out for its progressive spirit in the production field by being the first in Italy to build a galvanic plant for silver-plating to complement its own production of massive silverware. In 1938, Sambonet already started developing sophisticated industrial technologies to produce stainless steel, making its way to the silver plating process. In 1947, it started producing stainless steel knives and blades using its own technology.

In ogni epoca Sambonet si è distinta per lo spirito evolutivo della propria produzione realizzando, per prima in Italia, un impianto galvanico per l'argentatura da affiancare alla propria produzione d'argenteria massiccia. Già dal 1938, infatti, ha iniziato a mettere a punto sofisticate tecnologie industriali di lavorazione dell'acciaio inossidabile, arrivando all'argentatura dello stesso. Nel 1947 ha inoltre intrapreso, con tecnologia propria, la produzione di coltelli e lame in acciaio inox.

1956

CONQUERING THE HOTELLERIE
LA CONQUISTA DELL'HOTELLERIE

Sambonet conquered the international hotel market in 1956 when -first out of 53 competitors- it won the order for the Hilton Hotel in Cairo, with a holloware line that is still in its collection today. Since then, the company's has conquered other markets and has begun supplying world-class hotels and restaurants.

Sambonet ha conquistato il mercato internazionale alberghiero nel 1956 quando – prima su 53 concorrenti – si è aggiudicata la commessa per l'Hotel Hilton al Cairo, con una linea di prodotti ancora oggi in collezione. Da qui l'ascesa dell'azienda verso altri mercati e l'inizio della grande tradizione di forniture per hotel e ristoranti stellati di tutto il mondo.

1960

THE DESIGN AGE
IL DESIGN ENTRA IN AZIENDA

Starting in the early 1960s, Sambonet began a series of collaborations with the greatest masters of Italian design, first and foremost with Roberto Sambonet. He created collections and products of primary importance for the brand, such as the "Pesciera," which can still be admired today at MoMA in New York. The brand's vocation for design is still affirmed today in the work of the company's in-house Style Center as well as in the recent contributions of Italian designers Serena Confalonieri and Gianni Cinti.

A partire dai primi anni '60 Sambonet ha avviato un percorso di collaborazioni con i più grandi maestri del design italiano, primo tra tutti con Roberto Sambonet. A lui il merito di aver dato vita a collezioni di primaria importanza per il marchio, come la "Pesciera", il "Center line" e i vassoi "Linea 50", ancora oggi in collezione al MoMA di New York. La vocazione al design del brand si afferma tutt'oggi nel lavoro del Centro Stile interno all'azienda nonché nei recenti contributi dei designer italiani Serena Confalonieri e Gianni Cinti.

THE NEW HEADQUARTER
IL NUOVO QUARTIER GENERALE

In 1997 the brand was purchased by Paderno - a historic brand of cookware and kitchen tools for the professional catering sector - and in 1999 the new headquarters and production plant was inaugurated. An eco-friendly architecture harmoniously inserted into the countryside, designed by architect Enrico Frigerio.

Nel 1997 il brand è stato acquistato da Paderno – storico brand di pentole e strumenti cucina per il settore della ristorazione professionale – e nel 2002 viene inaugurata la nuova sede e stabilimento produttivo. Un'architettura ecocompatibile inserita armoniosamente nella natura, disegnata dall'architetto Enrico Frigerio.

Green & Sustainability

SUSTAINABILITY, TRANSPARENCY AND AWARENESS ARE KEYWORDS OF OUR CORPORATE RESPONSIBILITY.

SOSTENIBILITÀ, TRASPARENZA E CONSAPEVOLEZZA SONO LE PAROLE CHIAVE DELLA NOSTRA POLITICA DI CORPORATE RESPONSIBILITY.

CLEAN ENERGY
ENERGIA PULITA

Our production site relies on a state-of-the-art, zero-impact solar photovoltaic system, installed on the roof of our factory. More than 3,000 panels on 6,000 sqm. The plant can generate an average of 1,250 KW, equal to 30% of the company's annual needs. The plant cuts CO2 emissions into the environment consistently, the equivalent of 7,500 planted trees in 5 years. A small but significant contribution to our planet.

La nostra sede produttiva conta su un impianto fotovoltaico a energia solare a impatto zero, di ultima generazione, installato sulla copertura dello stabilimento. Oltre 3.000 pannelli su una superficie di 6.000 m2. L'impianto è in grado di generare mediamente 1.250 KW, ossia il 30% del fabbisogno energetico annuo dell'azienda. Lo stabilimento diminuisce così le emissioni di CO2 nell'ambiente in maniera considerevole: il corrispettivo di 7.500 alberi piantati nell'arco di soli 5 anni. Un piccolo ma significativo contributo per il nostro pianeta.

OVER 10 YEARS OF SUSTAINABILITY REPORT
OLTRE 10 ANNI DI BILANCIO DI SOSTENIBILITÀ

Since 2012 we have published the Sustainability Report every year, a report on our performance through numbers and achieved targets, a concrete proof of our commitment and attention to sustainable development.

Dal 2012 pubblichiamo ogni anno il Bilancio di sostenibilità, un report delle nostre performance attraverso numeri e obiettivi raggiunti, testimonianza concreta del nostro impegno e attenzione verso uno sviluppo sostenibile.

RESPONSIBLE CONSUMPTION
CONSUMO RESPONSABILE

We care about our planet and that is why we set our environmental policy on a responsible consumption and the use of clean and renewable energy sources. A sustainable and respectful approach to nature and our territory.

Abbiamo a cuore il nostro pianeta e per questo abbiamo impostato la nostra politica ambientale sul consumo responsabile e sull'utilizzo di fonti energetiche pulite e rinnovabili. Un approccio sostenibile e rispettoso per la natura e il nostro territorio.

OUR EFFORTS, EVERY DAY
IL NOSTRO IMPEGNO, TUTTI I GIORNI

Beside monitoring water consumption and purification systems, we use energy-efficient LED lighting elements, twilight lamps throughout the plant and controlled thermostats in every office. We have reduced paper consumption by choosing digital archiving, using recyclable materials and separate waste collection in every room. This is non-stop progress.

Oltre al monitoraggio del consumo d'acqua e sistemi di purificazione, impieghiamo elementi di illuminazione LED ad alta efficienza energetica, crepuscolari in tutto lo stabilimento e termostati controllati in ogni ufficio. Abbiamo ridotto il consumo di carta scegliendo l'archiviazione digitale, impiegando materiali riciclabili e operando la raccolta differenziata in ogni ambiente. Un miglioramento non-stop.

Nature meets Design

ITALIAN HEADQUARTERS

In 2001, in 9 months, the new headquarter between Vercelli and Novara was built, amounting to 150,000 square meters - equivalent to more than 20 football fields - of which 19,000 square meters for production. In 2004, the new warehouse was expanded to 13,000 square meters, later still to 25,000 square meters. The building - which includes one of the largest galvanic plants in Europe - meets all production and warehous requirements, as well as logistics needs. It is positioned exactly opposite the highway entrance for fast connections to the center of northern Italy.
Developed by the Frigerio Design Group, Slow Architecture is a progressive architecture, living in time and in its context. The parallelism created by the building establishes a geometric correspondence between the Po Valley and the linearity of the façade elevation, which is sensitive to the nuances of the sky and the land through an unprecedented play of colours, with a "screen" of gigantic colored pixels.

Nel 2001, in 9 mesi, viene costruito il nuovo headquarter tra Vercelli e Novara, pari a 150.000 m2 - equivalenti a oltre 20 campi da calcio - di cui 19.000 m2 di produzione. Nel 2004 viene ampliato il nuovo magazzino a 13.000 m2, successivamente ancora a 25.000 m2. Lo stabilimento - che include uno degli impianti galvanici più grandi d'Europa - risponde a tutte le esigenze di produzione e stoccaggio, oltre che di logistica, posizionato esattamente di fronte all'ingresso autostrale per rapidi collegamenti con il cuore nevralgico del Nord Italia.
Sviluppata dal Frigerio Design Group, la Slow Architecture è un'architettura progressiva, che vive nel tempo e nel contesto in cui s'inserisce. Il parallelismo creato dal nuovo edificio instaura una corrispondenza geometrica tra la Pianura Padana e la linearità del prospetto della facciata, sensibile alle sfumature del cielo e del territorio attraverso un inedito gioco cromatico, con uno "schermo" di enormi pixel colorati.

Opera

Seven elements in different shapes, textures and colors generate a catchy scenery giving life to a new buffet concept inspired by the seven musical notes. Alternating lines, flat surfaces, solids and voids, a series of components that, thanks to different heights, lend Opera modularity and the ability to create real architectures on the table. A symphony of geometrical sceneries where the GOLD DIAMOND and ROSE GOLD DIAMOND finishes add value to the solidity of the stainless-steel and to the delicateness of its design. This special processing technique gives the stainless-steel bright shades, and, at the same time, it naturally limits scratches, masks the wear and keeps the items unchanged and shiny over the time.

Sette elementi che, tra forme, texture e colore, compongono un palcoscenico d'effetto per dar vita a un nuovo modo di concepire il buffet, ispirato alle sette note musicali. Mediante l'alternanza di linee, piani, pieni e vuoti, i supporti – disponibili in differenti altezze – aprono Opera alla modularità e alla creazione di vere e proprie architetture in tavola. Una sinfonia di scenografiche geometrie in cui la solidità dell'acciaio inox e la leggerezza del suo design vengono valorizzate dall'esclusiva finitura Diamond, proposta in color ORO e ORO ROSA. Questo speciale processo conferisce al materiale vibranti accenti luminosi e, al contempo, inibisce naturalmente la formazione di graffi, cela gli inevitabili segni di usura e preserva gli oggetti brillanti e inalterati nel tempo.

Smooth movement and trasparency

The lid is equipped with a transparent window made of unbreakable glass that lets you see the delicacies held in the chafing dishes. The gradual closing mechanism and the special lid removal method make the whole System even more effective.

Grazie alla trasparenza dell'oblò in vetro temperato, i coperchi offrono visibilità alla prelibatezza dei contenuti degli scaldavivande. Il meccanismo di chiusura graduale e lo speciale metodo di rimozione dei coperchi rende ancora più performante l'intero Sistema.

GOOD DESIGN

Innovative design, shape, materials, concept, performance and esthetic come together in Sphera's round and symmetric forms. Coffee line, pitchers, vases and glacettes have in common the elegance and taste typical of Sambonet. A modern collection that gives stainless steel a new form.

Design innovativo, forma, materiale, concetto, performance ed estetica si riuniscono nelle forme tondeggianti e simmetriche di Sphera. La linea di caffetteria, le brocche, i vassoi e le glacette hanno come comune denominatore l'eleganza e il gusto proprio di Sambonet. Una collezione moderna che dona all'acciaio nuove forme.

Linea Q

Refined, innovative and timeless design characterizes Sambonet style. This entire concept plays with square and rectangular forms made up of interchanging edges and curves.

Un design raffinato, innovativo e senza tempo che connota lo stile Sambonet. L'intero concept gioca con le forme quadrate e rettangolari, caratterizzate da un alternarsi di spigoli e linee arrotondate.
